

Declaration on Regulation (EC) No. 1907/2006 on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

REACH is a regulation of the European Union on the registration, evaluation and authorisation of chemicals. It regulates the handling of chemical substances in preparations and articles. The purpose of this regulation is to ensure high-level protection of human health and the environment.

Under the REACH regulation, Baumer hhs products are classified as “articles”. They are not subject to mandatory registration, evaluation or authorisation. According to current knowledge and the information available to us from our suppliers, the products supplied to you meet the requirements of the REACH regulation at present. Furthermore, Baumer hhs does not process any substances in its articles that are subject to mandatory notification to the European Chemicals Agency (ECHA) according to Article 7 (2).

SVHC Candidate List (substances of very high concern)

The European Chemicals Agency (ECHA) has published on its website a list of substances of very high concern (SVHC) that meet the criteria set forth in Article 57 of the REACH regulation and have been identified in accordance with Article 59 of the REACH regulation:

<https://echa.europa.eu/candidate-list-table>

Duty to communicate information according to Article 33, REACH:

As a supplier of articles, Baumer hhs is obligated under Article 33 (1) of the REACH regulation to inform customers if the articles supplied contain a substance(s) on the SVHC Candidate List in a concentration of more than 0.1% by weight per component. If this is the case, we will inform you about the presence of a SVHC in accordance with the requirements of Article 33, REACH.

Baumer hhs continuously reviews the ECHA Candidate List for additions and updates and acts accordingly in compliance with REACH regulations.

Note on lead (Pb), CAS No. 7439-92-1:

In June 2018, lead (Pb) was newly added to the SVHC list. As a result, all exemptions for lead (Pb) based on RoHS Directive 2011/65/EU Annex III and IV are now subject to information requirements according to Article 33, REACH.

Baumer hhs products may incorporate components that contain lead (Pb) in a concentration of more than 0.1% by weight per component. This currently concerns components with exemptions under RoHS Directive 2011/65/EU, Annex III: 6a/b/c, 7a and 7c.I.
